Capabilities of RIM Design Generosity...

PREMOLD CORP

Premold Corp has advanced Reaction Injection Molding to a state-of-the-art process and we provide exceptional customer service. These advances have made it possible for us to expand our capabilities in our modern 68,000 square foot manufacturing facility. Our factory is equipped with computer controlled RIM molding equipment to ensure precise, high-quality parts.

We invite you to visit our facility to meet our RIM and customer service experts. Let us explain how you can benefit by innovative, low cost tooling solutions for your molded plastic parts.

Premold Corp has added a manufacturing location in Monterrey, Mexico. Already North America's leading RIM molder for specialty equipment, this greatly expands Premold's logistic and price advantages. Contact us to learn how you can benefit.
